# Director's Note

Paarangat edu. was established in 2016 with a vision of providing sincere educational services for class 8th, 9th, 10th, 11th & 12th students. During this tenure our students have achieved various milestones from "10 CGPA Marks" to "Best Student Of The Year" awards and from placed in "IITs" to "GMCs". Along with academic growth of student we also focused on their "Behavioral Perspective" which is very much required for a child to become a successful personality in future. Time to time our guidance on "How to deal with unfavorable situation?" helps many of our students to change their way of thinking on things around and to have a positive perspective. We also emphasize on creating a "Positive and Friendly Learning Environment" during class so that students are willing to ask doubts without any hesitation.

We at Paarangat believe that knowledge is only tool that make you capable enough to with stand against any situation in your life. We follow the four step function to make our standard exceed as a institution and they are

INFORMATION  
KNOWLEDGE  
WISDOM  
VISION

Information through, Books, teachers and technology provided as education, Which in turn process as knowledge to the brain of one try to acquire it. That knowledge gives wisdom to take wise and visionary steps as vision to one's life. So the system of our institute works at all levels of student to make him or her as better and wise individual for society and ultimately to country. We always try to teach student how to grab knowledge through education and not only as marks seeking system. As we know that students are future of any nation, so as an institution we always try to provide our best and continuous service for students betterment.
